DETAILED ACTION

Response to Amendment

This office action is in response to the amendments received on 05/12/2010.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Hall on 05/20/2010.

The application has been amended as follows:

- a. In claim 28, line 14, limitation "FFT of the" has been replaced by FFT on the
- b. In claim 28, line 15, a ",", has been inserted between "sequentially received" and "to transform"

Allowable Subject Matter

Claims 28 and 30-33 are allowed. The following is an examiner's statement of reasons for allowance: a comprehensive search of prior art of record failed to teach either alone or in combination an apparatus comprising: a timing acquisition section that is configured to output a timing signal in response to detecting an end point of a preamble; a controller that is configured to output a first control signal and a second control signal in response to the timing signal; a signal converter that is configured to

store the preamble in response to the first control signal, to transform the preamble by an N-point FFT into a second preamble; and an FFT input buffer that is configured to store the N/2 samples of the first data while the preamble is being transformed, wherein the signal converter is further configured to perform an N-point FFT of the buffered first data and second data having a sequence of N/2 samples as the second data is sequentially received to transform the first data and the second data into third data having N samples; and a frequency domain_equalizer that is configured to synchronize the second preamble and the third data in response to the second control signal with a clock frequency of the fast Fourier transform processor, and to output the synchronized second preamble and the third data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
